Dear Dave,

This is the H.R.S. review of Straight in Orlando, which led to the temporary license they are operating under. Myself, and the President of our North Pinellas chapter, had a meeting with H.R.S. in Orlando about mid February. We presented H.R.S. and their legal department with over one hundred pages of documentation, which clearly indicates these violations are still taking place. We strongly believe that H.R.S. will move for an administrative hearing to revoke Straight's operating license in Orlando before the end of the month.

Sincerely,

Richard R. Bradbury
